## Allies Have Turned Corner in War and Victory is Assured

London, Aug. 8.—"General Foch, by his counter stroke has driven the enemy back, and although the danger was not over, he would be a sanguine man on the German general staff who would now predict that Germany could obtain a military victory," said Premier Lloyd George today. The premier characterized General Foch's offensive as "the most brilliant in the annals of war."

The Germans declared the premier had attempted their land offensive, because the submarine offensive had failed.

Mr. Lloyd George stated that during the month of July 300,000 American troops had been brought over, 185,000 of them in British ships.

Since August, 1914, including those already with the colors, Great Britain alone, said the premier, had raised for the army and navy, 8,250,000 men, for the most part voluntarily. The Dominions had contributed 1,200,000 men, and India 112,000. One hundred and fifty German submarines have been destroyed, Mr. Lloyd George announced, more than half of them in the last year.

With the American Army on the Aisne-Marne Front, Aug. 6.—American machine gunners, protesting a location on the Vase, west of Fimmes, wiped out an entire battalion of German infantrymen and machine gunners today. The Germans at the time were getting into position to attack a group of American bridge builders who were approaching the location.

Some bridge material already had been moved near the south bank of the Vase, and the Germans, apparently discovering this fact, had sent a battalion to a hill position to prevent the Americans from carrying out their plan. A detachment of crack American machine gunners, however, previously had taken an elevated position commanding the location and opened fire when the Germans appeared.

Observers reported that they did not see a single German get away from the leaden hail, and according to the last accounts, not even enemy stretcher bearers approached the scene. The Germans replied so feebly with their fire, because of the surprise, that there were no American casualties.

London, Aug. 7.—Announcement of the landing of allied troops at Archangel and of further success for the Czech-Slovaks is made in a Russian government wireless message received here. Describing the situation in the north and east it says:

"At Archangel British and French have landed. They are advancing along the railway. Our staff is at Oderskai, one hundred miles south of Archangel."

"On the Czech-Slovak front after the fall of Gomers and Uda, the Czechs have captured Nava Nikolai-ovsk, Ekaterinburg and Simbirsk. On the Don we have retreated to Poverno. We are sending reinforcements toward Kazan and Simbirsk. Today the Czech-Slovaks shelled Kazan."

Kandalaska, Monday, Aug. 5.—(Associated Press)—Volunteer detachments of White Guards are giving aid to the allied units pursuing the Bolshevik forces retreating southward from Archangel.

The new Archangel government has arrested most of the Bolshevik leaders who had not fled. The Bolshevik commissioner of war was killed, otherwise the change in government, virtually was bloodless.

Before the allied troops landed at Archangel the local Bolsheviks issued a proclamation to the troops urging violence toward allied citizens.

London, Aug. 7.—The despondent tone of the latest German press comments is emphasized daily in special dispatches from Holland. A dispatch to the Daily Mail from The Hague today includes an editorial in the Dusseldorf Nachrichten which says that nobody looking into the future can see an end to the war.

"For though it is true that the end might come quickly," it adds, "it could only be an end of terror as in Russia."

The Torwaerts of Berlin says that events of recent days at last have shattered the illusion, created by inspired optimism, that Germany is invincible. It says:

"The German people at last realize the colossal gravity of the situation. Let us have courage to admit that as long as the war is not ended it is not won and can be lost."

Paris, Aug. 7.—Indications are that the German high command is all ready to proceed with another shortening of the western front on a different sector from that between Soissons and Rheims, according to a Zurich dispatch to the Matin quoting a Berlin dispatch to the Badische Press of Karlsruhe. This operation, it is added, has in view not only the occupation of more favorable positions but more particularly the release of a considerable number of divisions.

London, Aug. 7.—In an attack carried out this morning southwest of Morlancourt, the British regained the ground taken from them by the Germans along the Bray-Corbis Road, north of the Somme. The British line astride the Clarence River on the Flanders front has been advanced a short distance, says today's War Office announcement. A few prisoners were taken during the course of the operation.

### Hospital Ship Sunk About 130 Wounded Lost

The British hospital ship Warilda, bound from France to England with wounded soldiers, was torpedoed and sunk on Saturday morning last with a loss of about one hundred and thirty lives. The lost includes two military officers, a commandant in Queen Mary's auxiliary corps, one American soldier, seven of the crew and about 112 others.

About four hundred patients were on board the vessel.

Labour Day sports will be held at Hillcrest again this year.

### Lieut. Ray Howard Dies of Wounds

Word was received by Mrs. R. Howard, of Cranbrook, on Wednesday of last week, that her husband, Lieut. Ray Howard, had been seriously wounded. A second telegram on Thursday conveyed the sad news that death had resulted from wounds.

Lieut. Howard went overseas with an infantry battalion about two years ago and subsequently transferred to the flying corps.

Several fishing vessels were sunk by a German submarine off the Atlantic coast this week.

### Kaiser is Now in Melancholy Mood

Is Said to Be Very Tired Physically and Mentally

It is impossible not to be struck by the melancholy tone of Emperor William's speech on the occasion of the thirtieth anniversary of his accession to the throne. He said that he was spending the day with the army in the enemy's land, and that he had inspired the Kaiser to make the most characteristic of his address containing a mixture of boasts and threats and winding up with a far-sighted avowal of his policy. Kaiser Wilhelm from Amsterdam.

The Kaiser is said to be suffering from a very tired physically and mentally. His latest photographs clearly show that in looks he is twenty years older than in 1914. In spite of the clamor about victories he is greatly disappointed at the length of the war, and he is said to have told his entourage a number of times that he had a sort of feeling that he would not see the end of the struggle. This and the news that the German and Austrian offensives had both gone wrong may have inspired him when answering Field Marshal von Hindenburg's congratulations in the name of the German army.

It is strange for a man with such an inborn and inextinguishable pride as the Kaiser to openly admit on the public day of his reign that his work had not always been successful and that especially in matters relating to politics he had suffered many disappointments.

The climax of the speech, however, was the Kaiser's frank admission that England's intervention in the war had changed the whole character of the struggle, and turned it from a strategic affair into a world combat. "I knew exactly what was going to happen," he said. "You Germans did not know. Therefore I did not let myself be misled by the first wave of war enthusiasm."

Explaining the war as he understood it, the Kaiser said he held that it would be unwise to beat the allied forces. He only wanted to make the success of the German way of thinking, that is "the German conception of honor, right, freedom and morality," a permanent thing for the "welfare of mankind."

"The only thing that matters," he explained the Kaiser, "is the triumph of the German 'weltanschauung' (world conception)."

The Imperial address gave little pleasure in Germany, as its gravity and sadness were too apparent to be overlooked. It is the first time since the world-war began, that the Kaiser has delivered a speech giving such an impression.

### Germany's Labor Army

German Military Authorities Lay Stress on Value of Their Prisoners

"Our growing labor army" is the description applied by the Huns to their prisoners of war. According to a speech on the occasion of the thirtieth anniversary of his accession to the throne, the German military authorities lay stress on the supreme value of their prisoners as a source of labor for the German economy. They are so numerous, it is asserted, that they are far toward compensating Germany for the men she has had to withdraw from peaceful pursuits for active military service. The longer the war lasts, the more valuable to the Huns.

Hunt have a majestic air of big figures. Thus it is explained for their education that the "labor army" in prisoner camps is numerically greater than the whole working-class population of Denmark, Norway and Sweden combined, and is equivalent to the total number of working men in Germany before the war.

It is strange for a man with such an inborn and inextinguishable pride as the Kaiser to openly admit on the public day of his reign that his work had not always been successful and that especially in matters relating to politics he had suffered many disappointments.

### YES! MAGICALLY! CORNS LIFT OFF WITH FINGERS

You say to the drug store "man, give me a small bottle of Seacorn." This will cost very little but will positively remove every hard or soft corn from your feet.

A few drops of this new ether compound applied directly upon a tender corn will cause it to lift off instantly, and soon the entire corn or callus, root and all, dries up and can be rubbed off with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that he has tried it in a moment, and simply shrivels up the corn or callus without irritating the surrounding skin.

Don't let father die of infection or lockjaw from whitening at his corns. Just clip them out and make him try it.

If you drug hunt isn't any free zone tell him to enter a small bottle of his wholesale drug house for you.

### Impatience

The Allies Have Got a Big Job Ahead of Them

Senator Overman said the other day: "Don't be impatient about the slowness of the world war. The allies have got a big job ahead of them, and it will take them a long time to finish it. Impatience, then, is absurd."

"Yes, it is as absurd as the urchin who was told to wait for his supper at the age of seven, and on arriving home at the end of the first day seized a new, and eagerly turned to the comic page."

"The urchin studied the comic page intensively and then he said and said in a disgusted voice: 'That's no good of a school!'"

"Here I've been going to it, and I've learned to read yet, and ain't learned to read yet."

Worms in children's work have these pests attack the tender lining of the intestines, and if left to pursue their unhindered course, will ultimately perforate the wall, because these worms are of the hook variety that cling to the inner surface of the intestines. Miller's Worm Powders will not only exterminate these worms but will also kill the eggs that serve to repair the injury they have done.

### Children in Germany Starve

Germany, although attacking on the western front, is starving, says The Echo from Paris. An article appearing in The Berlin Arbeiter Zeitung relates the details of six children starving to death in an orphanage at Zenerhof, Thuringia. The orphanage was found to have been racked by its starving inmates, and physicians who visited the place found several of the children starved skeletons.

Prof. Franz E. Hein, the widely known economist, writing in the Bayerische Zeitung, of Munich, warns the Germans that the coming weeks will be harder than any that have passed and professes to foresee a general paralysis in the supply of wheat.

The Farm is Safe

The One Industry That Is Always Safe to Follow

The world is in delirium. The world never makes so. Business is abnormal and sub-normal. Some industry is at high speed and other at low tide. Price levels have rampant high. Wages have climbed to dizzy heights, in shop, factory and on the street. The reaction is in the farmer's law that day follows night. After the war, what? Will the fever leave the patient unharmed? Will city industry be hit and hurt? To a large extent yes. The farm industry that is always safe to follow is the husbandry of the farm. When war has had its way and waste, and Bolshevism will turn the soil as the source of natural wealth and prosperity. The fire of war will melt out the industry and less chimneys will cease to vomit smoke. The makers of machinery will languish in Russia and make and cease to fatten—the Toledo Blade.

### The Bottom Rung of Ladder

German Brutality Beyond All Characterization

The German bombing of the British hospitals in France is an act in regard to which ordinary language fails. The sweeping of the beds of the wounded with machine gun fire, and the ruthless killing of the devoted nurses and attendants who remained at their posts, is an abomination which seems to remove the German from the pale of humanity. Amid its return, Dr. J. D. Kellogg's Asthma Remedy is a wonderful curative agent. It immediately relieves the most distressing attacks of asthma, and is sold by thousands everywhere.

Production Is Essential

"Production is absolutely essential and the most demanding duty of the government is to see that it is carried on, but if we waited for further economic aid, we would be demoralized and destroyed, what kind of an answer would it be to say we will wait for production?" Sir Robert Borden.

### Boys' Justice

### The Voice at a Discount

Freddie Brown seems to be a lot more fuss made over Miss A's singing than over Miss B's, and I'm sure that the reason is plain. Miss A's voice is a lot better than Miss B's. The richer father.—Boston Transcript.

### CONSTITIPATED CHILDREN

Childhood constipation can be quickly banished through the use of Baby's Own Tablets. These Tablets are a mild but thorough laxative which never fail to regulate the bowels, sweeten the stomach and in this way relieve all the minor ills of little ones. Concerning them Mr. Eugene Coughlin, Knox Bridge, Quebec, writes: "My baby, who was constipated and feverish, has been cured by your Tablets. He is now a healthy baby and his bowels are regular."

### War Relief Entertainments

Regular Supply of Entertainment for Convalescent Soldiers in Canada

War emergency entertainments have been given in England for the past three and a quarter years, during which no less than 900 concerts have been given at an expense of £7,000 in fees to the artists engaged. The objects for which the committee engaged in this work were formed are: to give free concerts to wounded soldiers in hospital, to provide entertainment for artists thrown out of employment by the war and to foster British music. Although the war has been going on for three years, many find themselves by the time they are discharged that they are out of touch in the case of instrumentalists is essential to their success and prohibits any occupation that would destroy this essential.

During the first year of the war many Belgian artists, refugees, found themselves without resources other than those furnished by means of these concerts. The scheme has finally widened its scope, and on Thursdays at Steinway Hall there are regular "All-British" concerts in which no less than 23 new compositions have been presented. Besides there have been open air concerts as well as hospital concerts for wounded sailors and soldiers, concerts at camps and Y.M.C.A. Last summer by permission of Admiral Sir David and Lady Betty the open air concerts took place during the summer months in the gardens of the Admiralty. Soldiers and sailors in uniform were admitted free, and those in hospitals receive complimentary tickets. The Viscountess Bessie has the "movement" in charge.

There has been a regular supply of entertainment for convalescent soldiers in Canada ever since their first appearance but nothing so systematic and far-reaching in its scope as the work of the Canadian War Relief Society. The Women's Art Society of Montreal has, however, confined its patriotic relief work to artists who found their livelihood threatened and alarmingly diminished by the war. ### Enemy Promised Great Plunder

Rich Countryside Held Up as Compensation for Hardships

Plunder of Paris and loot from the rich countryside have been the promises made to the German soldiers by the high command before the offensive was started, according to an official despatch from France.

A German deserter related how the officers of the first wave preceded the attack painted in glowing colors the advantage of an advance in rich country where the men could live in abundance and compensate themselves for their hardships. He said measures were taken to guarantee and apportion the plunder, but soldier were warned that there was to be no renewal among the guards of the respectable incidents of Villers-Bretonneux, where the valiant guards of this division, breaking into the cellars, became so intoxicated that they refused to follow their officers.

Before the attack the commander of the guards complained that reserve regiments were sent into the front line, and so would have first choice at the loot.

### The Kaiser's Gratitude

The Kaiser is "filled with the most profound gratitude to God's mercy. No man needs it more. It is characteristic of something much resembling mental disquietude that it is 'amid my arms' that he feels this profound gratitude to God's mercy. Thank God, his arms are left, so far, and his fleet is spared as long as he keeps it from coming out—New York Times.

Hard and soft corners both yield to Douglas's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

### Reach High Mark

Western Canada School Lands Sell for \$7.50 an Acre

High prices continue to mark the sale of school lands in Western Canada. At Delta, Saskatchewan, one parcel sold for \$7.50 an acre. Forty-four other parcels out of 93 sold, brought more than \$30 an acre each.

At Saskatoon, Saskatchewan, 122 parcels were disposed of, 85 of them at prices ranging from \$10 to \$15 an acre. At Lundum, Saskatchewan, and Foremost, Alberta, sales have also been held and parcels were sold at prices up to \$50 per acre.

These are high prices for raw land in Canada. Most of the school parcels were, however, purchased by residents of the respective districts. The government has no power of the land, they consider they have good value. As a result of these high prices, the government will be prepared for next year's crop.

## Coal Dealers Must Display Their Prices

Ottawa, Aug. 8.—Regulations regarding the importation, sale and delivery of coal have been issued by the fuel controller. Among other things they require that every coal dealer post in a prominent place in his office a conspicuous type-written or printed notice containing a list of prevailing retail prices of all classes and sizes of coal handled by him, including discounts, if any.

In calculating overhead charges to determine the price of coal, dealers are required to exercise moderation in the amount they include as their own salaries. In this connection the regulations state salaries and expenses to officers or partners are not to be increased over those prevailing during the year 1914 at a greater rate than salaries in other lines have increased. A dealer may charge his business with his own salary, but at a reasonable rate only.

Dealers conducting a retail as well as a wholesale business are required to apportion their overhead expenses and fixed charges to each branch, and this apportionment must be on a reasonable comparison with the average overhead expenditures and fixed charges of dealers who are engaged entirely in retail or entirely in the wholesale business.

## Doctors Claim

## Whiskey is Good

Doctors Balle and James Anderson appeared before the magistrate at Hamilton, Ont., charged with unlawfully issuing prescriptions, and at the request of the crown were remanded for one week. According to Dr. Balle, who is alleged to have issued thirteen hundred prescriptions in one month, seventy of which were signed on the same day, whiskey in quart doses is good for the following complaints: Kidney trouble, stomach trouble, indigestion, colds, rheumatism, nerves, neuralgia, summer gripe, debility and toothache.

Dr. Anderson, who is alleged to have issued thirty-nine quart prescriptions in one day, stated that men doing hard work in steel plants and machine factories and mills had to have whiskey.

C. W. Bell, counsel for Dr. Balle, scorned the Ontario Temperance Act, and claimed that it was a fool law designed for babes.

## Child Amazes Professors

A tiny two-year-old baby girl holds the world's record in mental development. The infant prodigy is Martha Springer, 28 months old daughter of Mr. and Mrs. John E. Springer of Mountain View, California. The child can read like an eight-year-old. The father says the child has a normal mind which simply has been developed by persistent training. At a recent meeting of college professors and experts in pedagogy and psychology the child for forty minutes read, counted and told time by the clock and talked with the men who were observing her. Her baby brain did not age, and she appeared to enjoy the long interview.

All were unanimous in declaring that the baby's case indicates that geniuses are made, not born. The child reads and speaks with a vocabulary of about 2,000 words. She is large for her age and eats and sleeps well.

## "The Birth" At Opera House

Somewhat out of the ordinary run of films is "Birth," the motion picture to be shown at the Opera House Thursday, Aug. 22. One of the interesting parts of the film shows the story of baby's milk, from the cow in the pasture to the bottle in the chubby fist of the child. The "child" of the picture, however, is the scene where medical skill and science brings to life a baby apparently dead. There is something in this that touches the audience when the first faint flutterings of the little heart are discerned. The film is given in the form of the narrative of a nurse in a maternity hospital, each phase of baby's life from advent to the age of six being illustrated. There is humor in it, too, the little black baby that is called "Pie Plant," because of the rolling of her eyes, bringing many a laugh.

In an English boy's examination paper one of the questions ran: "If the premier and all the members of the cabinet should die, who would officiate?"

The boy thought a "little while" and then answered: "The undertaker."

## Lieut. Harry Fitzsimmons Wounded in Action

A message to Mrs. H. H. Fitzsimmons on Monday conveyed the intelligence that her husband had been admitted to hospital, suffering from wounds. No particulars as to the extent of his injuries were given.

## Lieut. E. M. Brown Is Prisoner of War

From unofficial sources comes the report that Lieut. E. M. Brown, of the Canadian Aviation Corps, is a prisoner of war in Austria. Lieut. Brown was at one time a resident of Blainmore and went overseas from Toronto in October last.

## Lieut. Charles Hiscocks Wins Military Cross

Details are available as to the incident in which Lieut. Chas. E. F. Hiscocks won the military cross.

Lieut. Hiscocks, of Blainmore, during the preparation for an attack, led his pack train of sixty animals forward with ammunition under most adverse conditions, and brought up stores under heavy shelling.

Lieut. Hiscocks, at the time of enlistment, was secretary-treasurer of the town of Blainmore, and joined the Lethbridge Kiltie Battalion. Mrs. Hiscocks is at present residing in England.

## H. S. Sweet, B.A., To be New Principal

A meeting of the Blainmore school trustees was held last evening, when applications for the position of principal for the coming term were considered. The resignation of Mr. C. R. Pearson was accepted and the application of H. S. Sweet, B.A., of Calgary, was accepted.

The application of Miss Helen McCarthy, as primary teacher, was accepted, at a salary of \$800.

The following accounts were passed for payment: Western Municipal News \$19.50, Blainmore Enterprise \$17.50, Delbert Ennis \$58.50, J. S. Latta \$0.90, Herald Publishing Co. \$1.60, Blainmore Pharmacy \$23.10.

## Coast Paper Promises To be Good in Future

Vancouver, Aug. 6.—The Vancouver World today says that Col. E. J. Chambers, chief press censor for Canada, has held conferences with the board of directors of the B.C. Federationist, the official organ of the provincial labor federation and of the Vancouver Trades and Labor Council, as the result of which Col. Chambers was given "absolute assurance" that a change in editorship would be made and that the paper would co-operate in the war aims of the nation. It is added that an announcement to this effect will be made in the next issue of the Federationist. The action of the directors, says the World, "is typical of that of many of the members of the organization who realize that their cause is being injured by the extreme attitude of many of their temporary leaders."

The World says that for some time the Federationist "has been Socialist in tone and unsympathetic with the war aims of the allies." It is stated that the chief press censor threatened to close down the publication, but consented to confer with the directors again.

## Could't Fool Pat

Patrick, lately out, was working in the yards of a railroad. One day he happened to be in the yard office when the force was out. The telephone bell rang noisily for some time before Pat came to the conclusion that it ought to be answered. He approached the instrument cautiously and slowly put the transmitter to his mouth, as he had seen the boys often do. "Hello there," he said.

"Hello," answered someone at a distant place. "Is this eight-six-four-eight?"

"Aw, 's'wan," Patrick replied. "I don't 's' think I am—a box car?"

The British steamer North Cambria has been sunk in Collision with an unknown steamer.

## A Few Features of The Week:

## Sergeant Gibbons

Member of the First Canadian Expeditionary Force. Wounded at Ypres; captured and held prisoner in Germany for seven months. The most thrilling war lecturer on the platform.

## Y. Minakuchi

Japanese scholar and orator, lectures on the fourth afternoon on "The War and the Anglo-Japanese Alliance." Answers with authority the questions in every person's mind about the "Oriental Chess Board."

## Dr. Salem G. Bland

Afternoon of the second day. One of the most widely known ministers and lecturers in the Dominion, who was in attendance at the International Conference in Washington as special Dominion delegate. His lecture subject is "The Century of Getting Together."

## J. C. Herbsman

Direct from the International Conference at Washington, D.C. His lecture "Carry On," presents the vital war problems. One of the most stirring, patriotic appeals ever presented.

## Chicago Ladies Orchestra

Fourth afternoon and night. Two full concerts by this splendid musical organization, featuring martial and patriotic airs. Estelle Hays, American soprano, appears as soloist.

## Vincenzo Gullotta

Noted violinist, appears in two concerts on the opening day. Vincenzo Gullotta is an artist of substantial gifts and large accomplishments. He has temperament and musical feeling, and to these native qualities he adds an admirably developed technique and a broad, masterful style.

The following public-spirited citizens have made your Chautauqua possible. They have personally pledged themselves for the sale of season tickets. They are bringing "The World to Your Door." They are bringing great lecturers to present the national problems at home and abroad. They are bringing splendid, inspiring music, and clean, wholesome entertainment. They are doing this without the hope of one cent of financial gain. They are doing it solely to uphold this community and make it a better place in which to live. They are doing this as much for YOU as for themselves. You owe them your support.—J. R. Smith, J. F. Hunter, F. M. Finckey, F. M. Thompson, Capt. J. B. Ritchie, W. H. Chapell, Jr., Harry Burns, H. ## PROCLAMATION

GEORGE the FIFTH, by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India:

To all to whom these presents shall come or whom the same may in any wise concern, GREETING:

A Proclamation of conditional amnesty respecting men belonging to Class I under the Military Service Act, 1917, who have disobeyed our Proclamation of 13th October, 1917, or their orders to report for duty, or are deserters or absent without leave from the Canadian Expeditionary Force.

E. L. NEWCOMBE, WHEREAS consider-  
Deputy Minister of Justice,  
Canada, able numbers of men  
belonging to Class I under our Military Service Act, 1917, called out on active service in our Canadian Expeditionary Force for the defence of Canada under our Proclamation of 13th October, 1917, although they have thus become by law soldiers enlisted in the Military Service of Canada,

Have failed to report for duty as lawfully required of them under the said Military Service Act and the regulations thereunder, including the Order in Council duly passed on April 20 last,

Or have deserted,  
Or absented themselves without leave from our Canadian Expeditionary Force,

And it is represented that the very serious and unfortunate situation in which these men find themselves is due in many cases to the fact that, notwithstanding the information and warning contained in our Proclamation aforesaid, they have misunderstood their duty or obligation, or have been misled by the advice of ill-disposed, disloyal or seditious persons.

AND WHEREAS We desire, if possible, to avoid the infliction of the heavy penalties which the law imposes for the offences of which these soldiers have thus been guilty, and to afford them an opportunity within a limited time to report and make their services available in our Canadian Expeditionary Force as is by law their bounden duty, and as is necessary for the defence of Our Dominion of Canada.

NOW KNOW YE that we in the exercise of Our powers, and of Our good will and pleasure in that behalf, do hereby proclaim and declare and cause to be published and made known THAT THE PENALTIES OF THE LAW WILL NOT BE IMPOSED OR EXACTED as against the men who belong to Class I under our Military Service Act, 1917, and who have disobeyed our Proclamation aforesaid, or who have received notice from any of our registrars or deputy registrars to report for duty on a day now past and have failed so to report; or who, having reported and obtained leave of absence, have failed to report at the expiry of their leave, or have become deserters from our Expeditionary Force, PROVIDED THEY REPORT FOR DUTY ON OR BEFORE THE TWENTY-FOURTH DAY OF AUGUST 1918.

AND WE DO HEREBY STRICTLY WARN AND SOLEMNLY IMPRESS UPON ALL SUCH MEN, and as well those who employ, harbour, conceal or assist them in their disobedience, that, if they persist in their failure to report, absence or desertion until the expiry of the last mentioned day, they will be pursued and punished with all the rigour and severity of the law, SUBJECT TO THE JUDGMENT OF OUR COURTS MARTIAL, WHICH WILL BE CONVENED TO TRY SUCH CASES or other competent tribunals; and also that those who employ, harbour, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf provided for their said offence.

Provided however that nothing contained in this Our Proclamation is intended to release the men aforesaid from their obligation to report for duty as soon as possible or to grant them immunity from arrest or detention in the meantime for the purpose of compelling them to perform their military duty; Our intention being merely to forego or remit the penalties heretofore incurred for failure to report, absence without leave or desertion incurred by those men of the description aforesaid who shall be in the proper discharge of their military duties on or before the said twenty-fourth day of August, 1918.

Of all of which Our loving subjects and all others whom these presents may concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. Witness: Our Right Trusty and Right Entirely Beloved Cousin and Counsellor, Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwick, Baron Cavendish of Keighley, Knight of Our Most Noble Order of the Garter; One of Our Most Honourable Privy Council; Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of Our Royal Victorian Order; Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of OTTAWA, this FIRST day of AUGUST, in the year of Our Lord one thousand nine hundred and eighteen, and in the ninth year of Our Reign.

By Command,

Under-Secretary of State.

## Local and General

A ball will be given in the open house on Friday night of next week. See posters.

In the last big drive against the Germans the French captured 35,000 prisoners.

Canada's population is now estimated at nine millions.

Louis J. Malvy, former minister of the Interior in France, has been found guilty of holding communication with the enemy and sentenced to five years' banishment. The sentence, however, does not carry civic degradation.

An order-in-council has been passed, including the provinces of Don Cossack, and Kutais, Russia, with the territory which is regarded as being in hostile occupation. The orders which prohibit trading with persons living in enemy territory therefore apply to these two Russian provinces.

## Submarine Base Sought

Halifax, N.S., Aug. 6.—The Halifax Herald and Evening Mail today offer a reward of \$5,000 "to any person who will supply information of the location of a base on the Nova Scotia coast, or the seaboard of the Bay of Fundy, used by the German submarines now operating in the North Atlantic waters, and which information will lead to the seizure and destruction of said base for the operations."

The Herald will also pay \$500 reward to anyone giving information that will lead to the first arrest and punishment of "any" of the enemy agents who, it is alleged by the Herald, infest Halifax.

## Bellevue Happenings

Miss Freda Hamilton is spending a week at Crows' Nest Lake.

D. Davidson is whipping the waters of the North Fork for a few days.

Haddad Bros. are installing a gasoline supply tank in front of their store.

W. P. Williams and family are spending the week in camp at Crows' Nest Lake.

Steve Humble is installing a Wain gasoline tank, the pump being already on the ground.

Remember the date of the Horticultural Exhibition—Monday, September 2nd—a good time in store for all.

Jarrett Evans and party of friends spent a few days fishing at South Fork. Bites were large, but few.

We understand that all the Bellevue candidates in the recent departmental examinations were successful in passing.

Mrs. Hopwood, who has been the guest of Mrs. R. T. Johnson for a few days, returned to her home at Creston, B.C., this week.

Ed. Coupland has severed his connection with the West Canadian Collieries here and has gone to Cadomin Collieries at Coalspur.

Bob Kerr arrived with his family from Fort George this week. Bob is busy getting the big store in the West Canadian block in readiness for business and in partnership with his brothers, of Passburg, will conduct a general Trade. We wish them every success.

Alderman and Mrs. R. T. Kerr are leaving next week for Bellevue, on the Crow's Nest branch of the C.P.R. Mr. Kerr intends opening up a general store in that town along with his two brothers who are located there. The departure of Mr. and Mrs. Kerr will be a distinct loss to the city and district. For nearly eight years they have been prominently identified with the social and business life of the community, and particularly in municipal affairs will their absence be felt. Ever ready to give their time and talent to numberless entertainments for charity and local benefits, their absence will be noted in every future event of the kind. May the best of luck and a full measure of prosperity attend them in Alberta.—The Prince George Citizen.

## Sergeant Gibbons Says We Must Do More Than "Our Bit"

"Don't say any more, 'I must do my bit,'" says Sergeant Gibbons of the Canadian Overseas forces, who will speak here at Chautauqua. "That phrase," he exclaims, "is worn out. It isn't the thing to say any more. The thing to say is, 'I'll do my best.'"

Sergeant Gibbons is a returned exchange prisoner from a German military camp, where he spent seven months. In a recent interview the gallant Canadian officer discussed at some length the importance of speeding up the support behind the lines, dwelling with particular emphasis upon the work of the Red Cross, Y.M.C.A. and affiliated relief organizations.

"It isn't the fighting," he said, "that is the worst thing the boys have to go up against over there. It is the wounds, the long internments in the hospitals, the pain, weakness and sickness that goes with it—the waiting until the wound mends. And the Red Cross is working with a million hands to allay that suffering. It needs more hands to work. It can have too many. It wants not men and women, 'doing their bit,' but men and women doing their best. It is the Red Cross that helps to bring the wounded back home to their loved ones."

Sergeant Gibbons gratefully brands as German lies all stories derogatory to the work of both the Red Cross and the Y.M.C.A., stating that "these organizations are of just as much force in winning the war as the boys in the trenches."

Sergeant Gibbons enlisted the day after England declared war on Germany and joined the Third Ontario Battalion of the first Division of Canadian troops to sail for France. He saw active fighting on the front, was severely wounded and captured by the Germans, all of which he will tell in his thrilling lecture on the second night at Chautauqua.

## Americans Heavy Smokers

The boys of the American Expeditionary Force smoke 16,000,000 packets of cigarettes a month; the same period they dispose of 3,000,000 cigars, 463 tons of chewing gum, and 60,000,000 sticks of chewing gum. They also chew 60,000 pounds of plug tobacco per month. Practically all these items have to be brought from the States. Flour and sugar for cakes and chocolate is also imported and made into the finished product in France.

## Japan's Policy in Asia to Be Discussed At Chautauqua By Japanese Scholar

With attention focused upon Japan, both with reference to her policy in the Far East and her immediate relations with the United States, nothing of more timely value for Chautauqua could have been secured, than Dr. Minakuchi, the distinguished Japanese scholar and lecturer who speaks the fourth afternoon of our assembly.

Referring to the rumors spread broadcast that Japan has been active in gaining prestige in the Philippine Islands, the Hawaiian Islands and Lower California, Dr. Minakuchi places the blame for these rumors on an unthinking class whose declarations are without foundation. "Such talk," he says, "is creating a bad atmosphere and should be purified before it poisons."

Regarding Japan's policy in the Far East, he contends that "Japan has never ignored the principle of the policy declared by John Hay or revealed in the Anglo-Japanese Alliance, namely: the maintenance of territorial integrity of China and the 'open door' and the equal opportunity of all trading nations in China. Japan does not want to steal China any more than America wants to steal Mexico."

In his lecture, "The War and the Anglo-Japanese Alliance," Dr. Minakuchi goes deep into the questions just touched upon above and in the opinion of Japanese and American leaders, renders an invaluable service to both countries in the way of promoting good will and harmonious adjustment of all differences. He has a splendid command of English and his apt and witty references and comparisons provoke frequent applause and appreciative laughter.

### War Subversions

A veteran sub. of 20, returning to the front, had a heart-to-heart talk with his father.

"You go up for your medical examination next Wednesday, dad. I don't think you will get through—I hope you won't. But if you do, they take you for active service, keep you right with the drill sergeant. I don't think you will improve matters. Don't 'putting it across him.' Just carry on a bit, and when I get my next leave I'll see if I can get you as my 'bat man,' then I can look after you."

"Right you are, my boy, but if you do come to you, remember that you also must refrain from 'putting it across' your father."

**A Family Trait**  
Recently an entertainment was given by the pupils of a public school. The fond mothers of nearly all the youngsters were assembled in the audience. Finally, the boy orator of the occasion arose. "Friends, Romans and countrymen," he began in a loud voice, "lend me your ears. There!" whispered one of the fond

mothers to the woman next to her.  
"I knew it! Just like his mother."  
"Just like his mother?" returned the  
other wonderingly. "Yes," answered  
the first. "He's Mary Jones' son."

A few days ago a man came out of the Greenhill mine, one hand holding his lunch can, while the other held a firm grip of his stomach. Noticing a look of pain in the man's face, Allie Hamilton asked: "Are you hurt, Leo?" The answer was "Yep!" "Where to," asked Hamilton, "in the chute?" "No, you darned fool," shouted Leo, "me hurt in the stomach!"

Acting on a report prepared by the Board of Railway Commissioners, an order-in-council has been passed increasing freight rates to an amount sufficient to meet the increased operating cost imposed on the railways by the new wage schedule. The increase will average about twenty per cent. The freight rate increases are the direct outcome of the acceptance in Canada of the McAdoo award, which applies to both government railways and railways owned by private companies.

Documents of the most significant character, indicating that recent events have brought about an extremely marked state of depression in the German army, have fallen into the hands of the British. Most significant of all is an extract from a German officer's diary in which he relates he has been asked by the divisional headquarters whether the troops in the line favored peace or a continuance of the war, his answer being immediate peace or an immediate decisive battle. This entry was dated before the German drive for the Marne began.
